Struck a Coal Mine.

W. F. Neely who is sinking a well three miles from Big Hill for Wm. Green of Shiner, struck at a depth of 50 feet a substance that might turn out to be a coal mine. Mr. Neely has gone three feet into this formation and the conditions continue to be the same. Today he brought several lumps of what appears to be a soft coal. Mr. Green is out of town at present and we do not know whether he will have the substance analyzed or not. But if he does and it proves to be a coal bed and the mine is developed, it will add thousands of dollars to Mr. Green's wealth.
